37 Youngsters Are Touring The East

A group of thirty-seven young people are now on a tour, enjoying points of interest in the East. They left, this week, by Atlantic Coastline train from Stuart and planned to leave the train first at Richmond, Va. From there they would travel by chartered bus to historic Williamsburg, and also to Jamestown, Va., the first permanent English colony, where they expected to board exact duplicates of the three ships "Susan Constant," "Good-Speed" and "Discovery," which brought early settlers to America.

In Washington, D. C. they will stay at the Shoreham Hotel. Among the interesting points they will visit there are the National Zoological Park, the Bureau of Printing and Engraving, the White House, the National Capitol, Library of Congress, Archives Building, Jefferson Memorial, Washington Monument, Smithsonian Institute, Museum of Natural History, the National Gallery of Art and Mount Vernon. On the return trip from Mount Vernon, they will travel up the Potomac by boat.

In New York, they will stay at the Taft Hotel which is located in the theatrical district known as "Times Square." They plan to tour Rockefeller Center, radio and TV studios, and go to the top of the R. C. A. Building. They plan to travel by subway to Battery Point, then by boat to the Statue of Liberty and a visit to the top. Next day they will visit the waterfront, the government buildings, Fifth Ave. Greenwich Village and the United Nations Building where (continued on page 8)

Wardrobe Is Topic For Home Agent

Miss Mary Todd, Home Demonstration Agent for Palm Beach County, spoke on "The Well Behaved Wardrobe" at the meeting of the Home Demonstration Club held at the Canal Point Community Building, last Thursday, with the president, Mrs. Roland Kahle presiding. Miss Todd told members how to choose clothes to disguise figure faults and pamper the budget, and how to select correct accessories. She also demonstrated how to make hats from chenille sticks that are attractive but cost only pennies.

Miss Delores Ellis, hair stylist from Burdine's, who was scheduled to be guest speaker at the meeting, had car failure and was unable to attend.

Miss Betty Marshall, a British subject from London, who was attending the meeting as a guest, agreed to answer questions on England while the group waited on Miss Todd to arrive from West Palm Beach. The proverbial British dry wit was evident as she told of her trip over on the S. S. United States. After being seasick for most of the journey over, she summoned enough courage to try a light lunch in the dining room. "I had a light soup in mind but when (Continued On Page 2)

Board Agrees To Accept R-W Deeds

After considerable deliberation Monday, the county commission agreed to accept right of way deeds for section line roads in an undeveloped 5,000 acre tract near the Pratt Whitney aircraft plant.

Engineer Robert Brockway told the commission that board acceptance of the rights of way would speed up the possibility of getting new industry to locate in the area.

He said industrial sites in the county are at a premium due to the high cost of land. The tract in question, he said, would be put on the market at rates much lower than is being asked in other areas.

Under the agreement offered, the commission voted to accept the right of way deeds but assumed no responsibility for construction of the designated roads.

Frank Rozelle visited his brother, John Rozelle, in Hollywood Sunday afternoon, and also his brother, W. M. Rozelle of Alabama, who was a guest there.

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unrelenting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

For 20 years America's newspapers have published Savings Bonds ads at no cost to the Government. The Treasury Dept. is grateful to The Advertising Council and this newspaper for their patriotic support.

Protective Plans Against Poisoning

Measures to protect small children from accidental poisoning by toxic pesticides were urged upon parents by Martin Isetts, first aid director of the Palm Beach County Red Cross Chapter, today.

The American National Red Cross is one of the 21 organizations that cooperate in National Poison Prevention Week, designated early in 1962 by an Act of Congress and Proclaimed by President Kennedy.

According to Mr. Isetts, of the more than 300,000 children five years old and under who swallow poison accidentally, nearly 500 died. Many others were permanently affected.

Recently the Florida State Board of Public Health issued the following about toxic pesticides:

During the past year there have been on several occasions news stories about people dying as a result of exposure to Parathion. The toxic pesticide is used in man's constant battle with insects, fungi, and weeds around the home and farm. Ten individuals, most of them children, lost their lives from contact with Parathion in Florida in 1961. The amount of 80 per cent of Parathion solution necessary to kill a 150 pound man is about three drops, which can kill by being absorbed through the unbroken skin. One drop of TEPP, Parathion or Phosdrin concentrate on the skin of a small child will usually be fatal.

If you elect to use a toxic pesticide use maximum precautions. All highly toxic pesticides should be kept in a well-ventilated storage place, which should be secured at all times by a lock. Under no circumstances should a high toxic pesticide ever be brought into the home. Only household insecticides, such as are sold in garden supply, hardware or food stores, should be kept at home. These materials which are generally considered moderately-to-slightly toxic should be secured in a locked cabinet or closet and by all means placed out of the reach of children. Even these household pesticides can kill small children.

In case of poisoning by a toxic pesticide, Get To A Doctor As Soon As Possible.

If the poison was spilled on the skin, wash it off immediately and thoroughly with large amounts of soap and water. If the poison was an organic phosphate, it is also desirable to wash in rubbing alcohol of a dilute solution of washing or baking soda to neutralize any remaining phosphate compounds.

If the poison was inhaled, move the patient to open air. If breathing has stopped, give artificial respiration.

If droplets or particles of poison have entered the eyes, flush thoroughly with plain water.

Christian Science Group Of Canal Point

How spiritual understanding of God brings freedom from weariness and fatigue will be brought out at Christian Science services Sunday.

Scriptural readings in the Lesson-Sermon entitled "God the Preserver of Man" will include this verse from Isaiah (40): "They that wait upon the Lord shall renew their strength; they shall run, and not be weary; and they shall walk, and not faint."

One of the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p. 217): "The scientific and permanent remedy for fatigue is to learn the power of Mind over the body or any illusion of physical weariness, and so destroy this illusion, for matter cannot be weary and heavy-laden."

The Golden Text is from Psalm 91: "He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty."
